

BRAND IDENTITY GUIDELINES · 2025

AI Pulse

"Your vision, our intelligence, one pulse."

«چشم انداز شما، هوش ما، یک نبض مشترک»

Who We Are

AlPulse is a Canadian AI consultancy that designs, builds, and deploys intelligent systems — custom AI agents, automation workflows, web applications, and cloud solutions — each built precisely around the client's business, not off a shelf.

MISSION

To make enterprise-grade AI accessible to every forward-thinking business — as a precision-built solution, never a generic product.

VISION

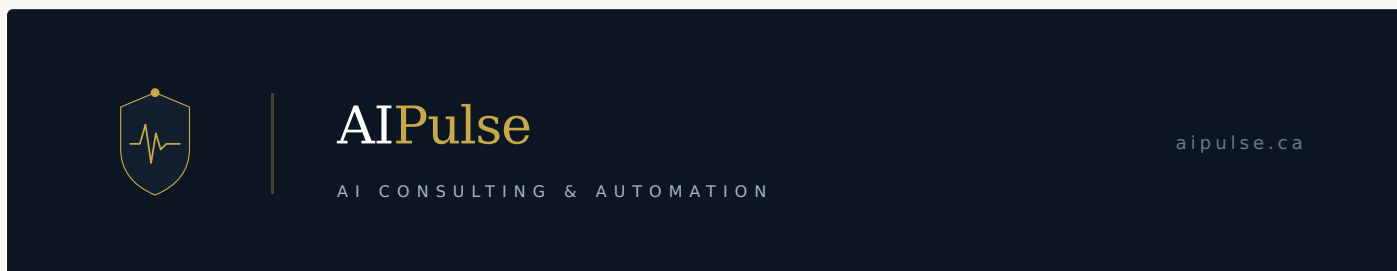

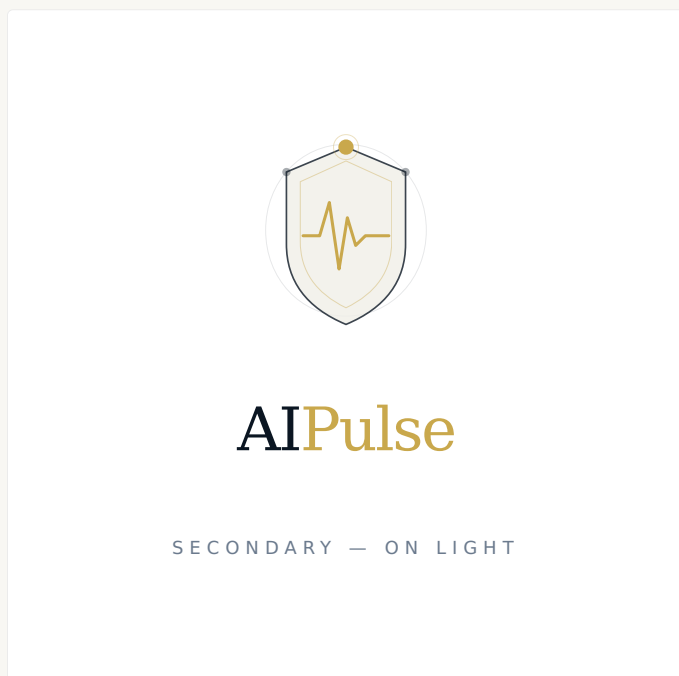

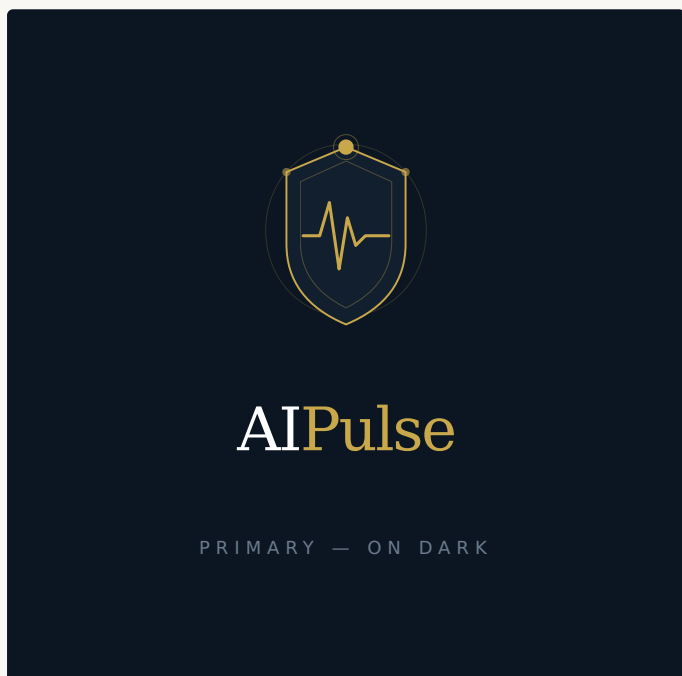

A future where every business operates with an intelligent layer — proactive, adaptive, and uniquely its own.

VALUES

Precision over speed.
Custom over generic.
Long-term partnership over one-time delivery.

The Pulse Crest

The crest is the brand's permanent mark. A shield conveys authority and trust. The pulse waveform inside it speaks to live intelligence and adaptability. The gold gem at the apex signals premium positioning. Together they form a mark that is both timeless and distinctly technological.

Horizontal lockup — for business cards, email signatures, and presentations

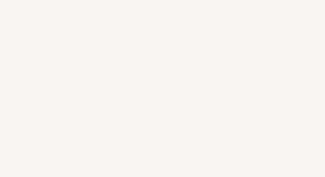

USAGE RULES

- Always maintain clear space equal to the shield's width on all four sides of the crest.
- Minimum digital size for the full lockup: 160px wide. Crest icon alone: 32px minimum.

- Never distort, recolor, rotate, or apply effects to the crest or wordmark.
- Never place the logo on a mid-tone or patterned background without a solid dark overlay.
- Approved backgrounds: Deep Navy #0B1622, Pure White #FFFFFF, and Cream #F8F7F3 only.

The Color System

Navy carries weight and authority. Gold signals precision and premium value. White provides clarity and space to breathe. These three in combination read as both technological and luxurious — a rare combination in the AI consulting space.

			
DEEP NAVY #0B1622 Primary bg	PRESTIGE GOLD #C9A84C Primary accent	PURE WHITE #FFFFFF Surfaces / text	WARM CREAM #F8F7F3 Page background
			
LIGHT GOLD #E8D08A Hover / highlight	SILVER MIST #A8B4C0 Secondary text	NAVY SOFT #1A2E42 Cards on dark	INK #1A2535 Body text

COLOR PROPORTION RULE

Navy forms 70% of any composition. White and cream share 20%. Gold is used at 10% maximum — it is a signal, not a background. The moment gold loses its scarcity, it loses its power.

Type System

Cormorant Garamond for all display and editorial moments — it brings gravitas without stiffness. Inter for all UI, body, and functional text — precise and modern. Vazirmatn for all Farsi content, at all sizes.

هوش مصنوعی، متناسب با کسب‌وکار شما

ما در AIPulse باور داریم که هر کسب‌وکاری یک راه‌حل منحصر به فرد لایق دارد، نه یک ابزار آماده.

TYPE SCALE

Role	Typeface	Size	Weight
Hero display	Cormorant Garamond	64-96px	300
Section heading	Cormorant Garamond	40-56px	300
Subheading	Cormorant Garamond	24-36px	400
Body copy	Inter	15-17px	400
UI label / CTA	Inter	10-12px	500
Farsi (all roles)	Vazirmatn	Same scale	300-700

Brand Voice in Slogan

"Your vision, our intelligence, one pulse."

«چشم‌انداز شما، هوش ما، یک نبض مشترک»

PRIMARY TAGLINE — HERO SECTION, BUSINESS CARDS, EMAIL SIGNATURE, ALL BRAND MATERIALS

"We don't just automate — we elevate."

«ما فقط خودکار نمی‌کنیم — ارتقا می‌دهیم»

SERVICES SECTION · PROPOSALS · PITCH DECKS

"Built for the future. Tailored to you."

«برای آینده ساخته شده، برای شما طراحی شده»

CAMPAIGN ADS · SOCIAL MEDIA · PRESENTATIONS

"Intelligence is not one-size-fits-all."

«هوش مصنوعی یک‌اندازه برای همه نیست»

DIFFERENTIATOR MESSAGING · LANDING PAGES

How We Speak

AlPulse speaks with the confidence of a practitioner and the patience of a partner. We are never the loudest voice in the room — but always the most credible one.

WE ARE

Confident — specific outcomes, not vague promises.

Consultative — we ask before we propose.

Direct — one sentence says more than three.

Bilingual — equally fluent in English and Farsi.

Human — no jargon unless the client uses it first.

WE ARE NOT

Salesy — "revolutionize your entire business overnight."

Generic — "AI-powered solutions for all your needs."

Technical for show — acronym soup signals insecurity.

Overly casual — approachable but always professional.

Interchangeable — every message is original, never templated.

The Story

About AIPulse

AIPulse is a Canadian AI consultancy founded to close the gap between enterprise-grade artificial intelligence and the businesses that need it most. We specialize in custom AI agents, intelligent workflow automation, web and cloud applications — each engineered from scratch around a client's unique operations, goals, and culture.

We don't sell software. We engineer solutions. Every engagement begins with a discovery session where we listen before we build. The result is an AI system that fits your business the way a bespoke suit fits its wearer — precisely, and with lasting quality.

Our clients range from growing startups to established enterprises across retail, real estate, professional services, and beyond. What they share is a desire to work smarter — and the clarity to know they need a partner, not a product.

AIPulse یک شرکت مشاوره هوش مصنوعی کانادایی است که راه‌حل‌های سفارشی هوش مصنوعی را برای کسب‌وکارهای مختلف طراحی، توسعه، و پیاده‌سازی می‌کند. ما باور داریم که هر سازمانی لایق یک سیستم هوشمند منحصربه‌فرد است، نه یک نرم‌افزار آماده.

What We Build

AI Agents

Autonomous agents that handle repetitive tasks, client interactions, and decision-making — trained on your data, deployed in your environment.

Workflow Automation

End-to-end automation of business processes — from lead qualification to document generation, reporting, and internal operations.

AI Web Applications

Web applications with intelligence built in — smart search, personalized recommendations, conversational interfaces, and real-time analytics.

Cloud Solutions

Scalable, secure cloud infrastructure for AI workloads — deployment, integration, monitoring, and ongoing optimization.

AI Strategy

Discovery sessions, readiness assessments, and strategic roadmaps — helping businesses find precisely where AI creates real, measurable value.

Custom Applications

Mobile and desktop applications with AI capabilities, built for your team or your customers — from concept to launch.

Non-Negotiables

- Write the brand name as "AIPulse" — one word, capital A, capital I, capital P. Never "AI Pulse," "Ai Pulse," or "aipulse" in display contexts.
- The primary tagline is always: "Your vision, our intelligence, one pulse." — never truncated, never reworded.
- Gold (#C9A84C) is a prestige accent, not a background. It must never cover more than 10–15% of any composition.
- The crest icon must always sit above or to the left of the wordmark — never below, never to the right.
- All Farsi text must use Vazirmatn. Never substitute with system fonts, Tahoma, or other Persian typefaces.
- Never place the crest or wordmark on a mid-tone, colourful, or patterned background without a solid dark overlay.
- The brand voice is English-primary, bilingual-capable. Farsi copy must be written natively — never machine-translated directly into final materials.
- The canonical domain is aipulse.ca — always link to the .ca domain in Canadian-market communications.

"Your vision, our intelligence, one pulse."
